

PCI Compliance Program

To help you kick start your compliance efforts, Intuitive Website Solutions is sponsoring a 14-day free trial of ControlScan's internet security and marketing solutions, a PCI Compliance scanning service. It will give you an opportunity to identify initial vulnerabilities and determine the right compliance and ecommerce security plan for your business moving forward. ControlScan is a market leader in e-commerce security, enabling businesses and consumers to have peace of mind in a connected world. In addition to weekly Website vulnerability scanning and remediation assistance along with security and business certification seals, ControlScan along with Intuitive Website Solutions offers the simplest solution to Payment Card Industry compliance by providing a personal touch to their customers. Meet Payment Card Industry (PCI) Requirements with ControlScan.

Intuitive Website Solutions is aware that you face issues concerning compliance, security and marketing for your Website. Whether you are trying to secure your Website, protect your customer's information or meet PCI requirements, ControlScan's comprehensive product offering can help.

Their solution is designed to ease the pain traditionally associated with compliance and security mandates. Host and secure your site with Intuitive Website Solutions/ ControlScan today.

Beyond the mandated PCI compliance initiative, ControlScan provides qualified merchants the ability to show browsers their commitment to security by posting the Verified Secure security seal on their Websites. Merchants' have reported sales totals that have climbed an average of 10% when shoppers learn that ControlScan's Verified Secure offerings are helping to secure their Website transactions.

ControlScan also offers a personal level of service; working with you every step of the way, even giving you access to a real person so that it's easy to get the help you need.

• Vulnerability Scanning • Payment Card Industry (PCI) compliance • Verified Secure security seal • Business Background Reviewed certification seal • SSL and EV SSL Certificates • LIVECHAT • Search Engine Submissions • Press Release Program Marketing Your Security and Certification Achievements:

When online buyers see the security seal, they'll be reassured that your site is Verified Secure and so will you.

The Verified Secure scanning is working behind the scenes to:

• Maintain a database of thousands of known Website vulnerabilities • Find any vulnerabilities in your systems and network through both automated and on-demand scans that can be executed on a daily, weekly or monthly basis • Locate recommendations to help you fix any security problem Once you successfully pass the scan criteria, your site will be awarded the Verified Secure seal.

ControlScan provides Business Background Reviewed certification to a Website only after the following has been verified:

• Business address and location • Business registrations • Internet domain names registered to the business • Business registrations and locations posted on the business Website are correct and valid. ACT NOW to take advantage of this special 14-day free trial
